01 · WHO HE IS

Professional Summary

Structure before scale. Stabilization before optimization. Governance before automation.

Transformation leader with 22 years of experience spanning procurement, strategic sourcing, AI governance, and national-scale digital platforms across the Middle East, Central Asia, and the United Kingdom. Chartered MCIPS with a documented record of **\$95M+ in strategic initiatives** delivered across the GCC with **zero compliance breaches**, and **three AI platforms deployed to production** with eight operationalized use cases. Measured efficiency gains and AI value created total **\$5.5M+**: \$3M+ strategic procurement savings (Motorola/Huawei), \$1.2M annual AI procurement compliance savings, \$1.2M defense governance savings, and additional AI fraud-analytics and platform efficiency gains.

Career foundation built inside Fortune 500 environments: eight years at **Huawei Technologies** rising from CEG Buyer to Country Procurement Director through sanctions-era constraints, and five years at **Motorola Solutions** governing procurement across 10+ countries for mission-critical public-safety programs. Currently leads **Global Markets Technologies (GMT Oman)**, a Muscat-based venture and advisory umbrella spanning HydroNova (fractional Chief Strategic Operations Advisor), Shams for Services (Fractional Advisor), and SuperJet Oman (COO, exited), alongside founding the award-winning **ClarityOS™** and serving as Consulting Partner at AI Certs. Selected venture and experiment roles, including Quantum and the AI fraud analytics venture, are detailed under Selected Ventures, Experiments, and Projects. Operated SuperJet Oman as the country's first national API hub serving 5M+ citizens across 900+ service centers.

Core doctrine: *structure before scale, stabilization before optimization, governance before automation.*

\$95M+ Strategic initiatives, GCC-wide, zero compliance breaches	5M+ Citizens served on national platform (900+ centers)	97.6% Excellence rating, national defense procurement (KSA)	\$5.5M+ Documented efficiency gains and AI value created	3 + 8 AI platforms in production + operationalized use cases

02 · WHAT HE DOES

Core Competencies

Procurement & Supply Chain

Strategic Sourcing	Supplier Relationship Management	Vendor Consolidation	
Contract Management & Negotiation	TCO	Category Strategy & Spend Analytics	Tendering (RFQ/RFP)
Subcontractor Quality Audits	Procurement Governance & Compliance	ESG & Ethical Procurement	
ERP/SRM Implementation			

AI Strategy & Governance

AI Roadmap Design	Platform Selection & Vendor Evaluation	Use-Case Development	
Human-in-the-Loop Evaluation	AI Policy Interpretation	Trust Architecture	AI Readiness Assessment
Executive AI Communication	Responsible AI Deployment		

Transformation & Operations

Digital Transformation	Operating-Model Architecture	National Platform & Ecosystem Design	GRC
Crisis Navigation & Turnaround	Change Management	Public-Private Ecosystems	
C-Level Stakeholder Engagement	Leadership Coaching & Mentoring		
Sharia-Compliant Digital Banking Architecture & Central Bank Licensing (CBO Framework)			
Hydrogen / Green Energy Market Entry & ESG Frameworks			
National Technology-Park Cluster Mapping & Institutional Delegation			

03 · WHERE HE HAS LED

Professional Experience

Founder ClarityOS™, Global	2024 – Present
<i>Creator of the award-winning pre-governance Human Operating System for organizations and procurement professionals, built on the principle that stabilization precedes optimization and that clarity under pressure is trained, never assumed.</i>	
- Developed the full OS portfolio: ClarityOS™, GovernanceOS™, Crisis-to-Clarity™, CapabilityOS™, TalentOS™, HumanOS™, and DocumentationOS. - Designed the B2B cognitive-transformation delivery model: 1-Day Reset plus 90-Day Assist enterprise program, stress-tested with strong client feedback. - Built supporting programs: AI Pyramid Framework (5-Week CEO Program), Procurement Pyramid, 8C Crisis-to-Clarity model, Carrier Catalyst 60-Day Executive Program, National Supplier Governance Model. - Awarded the Entrepreneurial Excellence Award at Founders 2.0, Dubai 2025 (score 96/100, Top 10%, 25/25 “Iconic” professional category). - Positioned at LUMS Decode 2025 as infrastructure rather than consulting; 90%+ pilot adoption across framework deployments against an industry norm near 25%.	

Managing Partner & Co-Founder

Nov 2023 – Present

Global Markets Technologies (GMT Oman), Muscat

Rebuilt GMT as an Oman-registered consultancy at the intersection of technology consulting, procurement transformation, venture building, and GCC market advisory. Revenue from month one (approx. OMR 90,000 in 2024). GMT Oman is the umbrella entity for the ventures and fractional mandates below.

- Delivered \$80M+ in procurement optimization and \$3M+ in cost savings across ventures and advisory engagements.
- Deployed an AI-driven procurement compliance platform: contract review 40 hours to 6 hours (85% reduction), 94% automated anomaly detection, vendor risk assessment 2 weeks to 48 hours, \$1.2M annual savings, 89% adoption in 3 months.
- Signed exclusive JV to build Oman's first Sharia-compliant digital bank with full Central Bank of Oman alignment: procurement governance, vendor ecosystem, licensing roadmap, and risk architecture for a ~\$30M program foundation.
- Developed the AI Procurement Dashboard, Executive Cascade Model, and AI Pyramid for enterprise AI readiness workshops; signed exclusive GCC distribution for an Alibaba award-winning FoodTech line.

Strategic Ecosystem & Institutional Growth Architect

2026

NASTP Delta / Lahore Chamber of Commerce & Industry (LCCI)

Structured a high-visibility institutional engagement connecting the National Aerospace Science and Technology Park (NASTP) Delta Lahore with LCCI leadership, translating national technology-park positioning into an execution-ready industry-collaboration pathway.

- Mapped Lahore-based companies against seven NASTP Delta clusters: AI ecosystem, immersive technologies, robotics and mobility, sustainability, advanced engineering/manufacturing/compliance, aerospace technologies, and microelectronics/sensing systems.
- Built briefing design, delegation flow, tenancy potential, work-share logic, and follow-up partnership structure for public-private ecosystem development.
- Positioned Pakistani technology capabilities for GCC-Pakistan bridge initiatives and international market entry.

Chief Strategist

2024 – 2026

Oman Sharia-Compliant / CBO Digital Bank (GMT Oman venture)

Led the strategic, regulatory, and partnership architecture to establish Oman's first digital-only / Sharia-compliant digital bank under the Central Bank of Oman Digital Banking Framework (effective June 2025).

- Structured a Category 1 unrestricted digital banking license pathway (OMR 30M / ~\$78M USD minimum capital), targeting a \$2B+ market with 95% internet penetration and 1.71M digitally-ready population.
- Designed the GMT-MHD partnership/acquisition framework at a \$18–22M valuation and the GMT-Codebase Technologies / Digibanc platform partnership (65% platform stake, 35% GMT operating stake).
- Produced the full CBO engagement package: executive dashboard, regulatory framework analysis, strategic synthesis, investor profile, acquisition strategy, and international benchmarking.
- Built governance-first, GRC-embedded operating model and vendor ecosystem aligning Human OS, governance discipline, supplier architecture, and system-level controls.

Chief Strategic Operations Advisor (Fractional)**Apr 2025 – Present****HydroNova LLC (GMT Oman portfolio)***Fractional advisory for Oman's first indigenous CO2-to-hydrogen conversion technology.*

- Developing market-entry strategy targeting \$2B+ Middle East hydrogen export potential; establishing Oman's first hydrogen commercialization pathway.
- Building ESG frameworks, maintenance architecture, and spare-parts supply chain for the hydrogen fleet ecosystem.

Fractional Advisor**Jun 2025 – Nov 2025****Shams for Services & National Projects (GMT Oman advisory)***Five-month fractional mandate supporting the reengineering of SFS into a tech-enabled national contracting partner across Civil, Mechanical, Electrical, and GreenTech divisions.*

- Supporting HDPE pipeline systems, hydrogen-enabled maintenance readiness, drone inspection, GIS surveying, field fencing, and security solutions.
- Applied the Super-Labor dignity-first workforce framework; embedded green procurement and ESG frameworks into national project delivery.

Chief Operating Officer**Feb 2024 – Aug 2025 (Exited)****SuperJet Oman (GMT Oman venture)***Joined two banker co-founders and an appointed CEO to operate a national digital services venture; launched the MVP at Maktab Sanad's annual event, December 2024.*

- Architected and operated Oman's first national API hub, integrated into 900+ Sanad centers nationwide.
- Delivered 5M+ users, 4M+ annual transactions, 25% digital-adoption uplift, 30% faster service delivery, and 99.8% uptime with full regulatory compliance.
- Launched the region's only on-the-go mobile-to-inbox e-visa service with no middleware, plus mandatory insurance products previously unavailable via Sanad, travel products, and airport-lounge campaigns.
- Integrated the flagship e-Visa service via OmanTel into Oman's national digital platform (OTech) in Q2 2025; active engagement with Salam Air.
- Implemented document intelligence (OCR + NLP trained on 100K+ documents at 96.5% accuracy); e-visa processing accelerated from 7–10 days to 2–3 days.
- Institutionalized compliance, vendor assessment, operational readiness, and PDPL-aligned controls; exited August 2025 with market posture intact following partner-level disagreement.

Consulting Partner**2025 – Present****AI Certs, Global***First globally authorized AI governance certification partner.*

- Certified AI Trainer (AICT) in Emotional Intelligence, delivering governance-first AI adoption programs.

Professional Experience — Corporate Years

Regional Procurement Consultant, Middle East & Central Asia

Sep 2020 – May 2025

Motorola Solutions UK Ltd, Oman / UAE

Governed procurement and supplier performance for mission-critical public-safety and national-security programs across 10+ countries, including KSA, Qatar, UAE, and Bahrain.

- Delivered \$2.5M to \$3M+ in cost savings through strategic sourcing and contract optimization; optimized the vendor base by 15–20% across 100+ suppliers.
- Digitized end-to-end procurement (request, contract, execution), reducing cycle times by 10–15%; maintained 95%+ on-time delivery and 90%+ global-compliance adherence.
- Built vendor-risk and inspection frameworks aligned to US regulatory standards for national-security projects, reducing supplier risk by 40%+.
- Applied ML clustering to three years of spend data (\$150M+ transactions), raising categorized spend visibility from 60% to 94% and cutting RFQ cycle time from 6–8 weeks to 2 weeks.
- Served as trusted procurement advisor to C-level executives through the COVID-19 crisis; owned P&L projected-versus-actual spend monitoring.

Chief Investment & Partnership Officer

2024

ILMVERSITY (LAAMP), London (Remote)

Led investment and partnership strategy for an EdTech startup; launched the LAAMP VR/AI learning platform in pilot schools.

- Secured 15+ institutional partnerships; platform received a TechCrunch 2024 award nomination.

Procurement Director

2018 – 2020

Huawei Technologies, Bahrain

Led regional 4G/5G and enterprise procurement through US sanctions, regulatory complexity, and geopolitical pressure; managed \$50M+ annual spend with zero compliance breaches.

- Delivered 10–15% cost savings with improved payment terms; consolidated the supplier base by 25%, including one category from 115 vendors to 3 strategic partners.
- Maintained critical telecom infrastructure continuity under sanctions constraints, within a wider \$95M+ portfolio governed across six GCC markets.

Senior Procurement Manager

2016 – 2018

Huawei Technologies, Bahrain

- Delivered \$3M+ in strategic-sourcing savings; reduced lead times by 20%; deployed e-procurement systems across regional operations.
- Mentees elevated from tactical roles to Director/VP within 18 months; awarded Huawei Best Mentor Award (2017).

CEG Buyer / Project Procurement Manager

2012 – 2016

Huawei Technologies, Kuwait

- Built procurement frameworks for mission-critical telecom projects with multi-million-dollar portfolios; owned tender/RFQ review, supplier portfolio development, and subcontractor quality audits.
- Awarded Huawei “Future Star” (2015) for procurement innovation and performance.

Founder & Managing Director

2009 – 2012

Global Markets Telecommunications (GMT v1), Kuwait

- Founded and scaled a telecom technical services company; built and personally trained a team of 20+ engineers and technicians.
- Delivered the signature Al Hamra Tower In-Building Solution for Kuwait's tallest landmark; delivered projects for Huawei as a certified service provider.

Country Manager, Kuwait / Procurement & Projects Manager, Qatar

2007 – 2010

Zajel Telecommunications W.L.L.

- Qatar (2007–2009): led the Qtel (Ooredoo) network swap from Motorola to Nokia across 300+ BTS sites with zero service disruption.
- Kuwait (2008–2010): as Country Manager, led the Wataniya second-carrier deployment across 140+ sites; managed country P&L and client relationships.

Logistics Assistant (2004) to Logistics Officer (2005)

2004 – 2007

FCCI, Dubai / Kuwait

- Contributed to the infrastructure launch of Du, the UAE's second telecom operator: materials, towers and cables, inventory, network design, and site activation.

04 · BEYOND THE MANDATE

Additional Initiatives

- **Managing Partner, Oman — SCMDOJO (expert marketplace), 2024 – Present:** leads SCMDOJO's strategic presence in Oman; verified global expert on the platform (listed at \$250/hr); access to 135+ international supply chain and procurement experts; custom training ecosystems and AI-powered competence profiling.
- **Mentor — Oman Startup Hub, since Aug 2024:** strategy and operations mentoring for 25+ regional startups.
- **Expert Networks:** Guidepoint Global and Insight Driven Research (IDR) consultant for procurement, sourcing, and governance engagements.

05 · BUILDING WHAT'S NEXT

Selected Ventures, Experiments & Projects

Chief Executive Officer

Jan 2026 – Present

Kuantum (GMT Oman startup, CXO Global Forum)

Appointed CEO by the founder of CXO Global Forum, a leading Pakistani startup and digital-economy program; selected from 250+ applicants with a mandate of absolute trust.

- Leading repositioning of the AI-enabled digital event / platform proposition around governance, trust architecture, adoption logic, and institutional credibility.
- Building market-entry sequencing and executive communication architecture; positioning Pakistani technology for international markets, including GCC-Pakistan bridge initiatives.

Co-Founder

Under GMT Oman portfolio

AI Fraud Analytics Venture (GCC digital payments)

- Co-founded an AI fraud analytics venture for GCC digital payments; improved fraud detection from 72% to 94%; reduced false positives by 80%; cut investigation time from 4 hours to 15 minutes.
- Built anomaly-detection logic and risk-scoring workflows for real-time payment transaction monitoring.

Co-Architect

May 2026

OrbetX Business Growth Engine

B2B market access, relationship-led growth, and phased AI-enabled operating-model GTM.

- Built positioning logic, commercial model, MVP roadmap, investor memo, deck structure, website copy, operating phases, and first-cohort economics.
- Designed a manual human-led growth engine first, with dashboarding, matching logic, orchestration, and AI-assisted workflows introduced after real-world process learning.

06 · EVIDENCE OF DELIVERY

Key Projects & Engagements

PROJECT	SECTOR	OUTCOME
SuperJet National Platform, Oman	Government / e-services	900+ Sanad centers; 5M+ users; 4M+ transactions; +25% adoption; +30% speed; 99.8% uptime
Oman Sharia-Compliant / CBO Digital Bank	Central Bank / Fintech	Category 1 pathway; OMR 30M capital; \$2B+ market; \$18–22M GMT valuation; full CBO regulatory package
NCMS National Procurement OS, Riyadh	Defense	97.6% excellence rating; 50% reduction in operational firefighting; bilingual AI from Day 1; GAMI/SASO compliance
AI Procurement Compliance Platform	Enterprise / AI	Contract review 40 hrs to 6 hrs; 94% automated anomaly detection; \$1.2M annual savings
AI Fraud Analytics Venture	Fintech / AI	Detection 72% to 94%; false positives down 80%; investigation time down 94%

ADNOC Procurement Leadership Program	Energy	Rated “Excellent”; 6-Month Manager Development Guide deployed
Bahrain Defense Governance	Defense	\$1.2M savings via governance documentation; 40%+ supplier-risk reduction across KSA/Qatar/UAE/Bahrain
Hydrogen Fleet Ecosystem, HydroNova	GreenTech / Energy	Maintenance, safety, regulatory, and spare-parts model for \$2B+ export market
NASTP Delta / LCCI Ecosystem	Public-private ecosystem	Technology-park positioning; seven innovation-cluster mapping; execution-ready delegation structure
LAAMP VR/AI EdTech Platform	EdTech	TechCrunch 2024 award nomination; 15+ institutional partnerships
Telecom builds (Du, Qtel/Ooredoo, Wataniya, Al Hamra Tower)	Telecom	Second UAE operator go-live; 300+ BTS swap, zero disruption; 140+ site deployment; landmark-tower IBS

07 · INTELLECTUAL PROPERTY

Proprietary Frameworks & Methodologies

THE OS PORTFOLIO **ClarityOS™ & Companion Operating Systems**

ClarityOS™ (pre-governance Human Operating System) · **GovernanceOS™** (controls, compliance, RACI, institutional memory) · **Crisis-to-Clarity™** (crisis to capability sequencing) · **CapabilityOS™** (AI intelligence and national capability) · **TalentOS™ / HumanOS™** (workforce and human-layer transformation) · **DocumentationOS** (governance documentation).

PROGRAMS & TOOLS **Enterprise Delivery Instruments**

AI Pyramid Framework (5-Week CEO Program) · **Procurement Pyramid** (Governance, Strategy, Insights, Performance) · **8C Crisis-to-Clarity Model** · **Carrier Catalyst** (60-Day Executive Acceleration) · **National Supplier Governance Model** · **Leadership Transformation Matrix** · **Procurement Resilience Roadmap** · **GRC-Embedded Innovation Toolkit**.

BEYOND TECHNIQUES **The 14 Strategic Leadership Frameworks**

Validated across Fortune 500 implementations with **90%+ pilot adoption** and **150–200% Year-One ROI**, including Exile Resilience, Cultural Ecosystem Mapping, Constraint-Based Innovation, Governance as Accelerator, and the Pyramid Framework.
